

**LIFTING**  
Don't forget to protect your back! Two men lifts still need to be done the right way

**THE LADS DRIVER TRAINING FACILITY**

Was great to be involved in seeing the final stages of the Southern Cross LADS driver facility get completed, a great non-for-profit organisation in honour of four young boys who lost their lives on our roads, the driver education training programs will be a literal life saver, an extra thanks to Longy for doing such a great job representing Morgans.....

If you have access check him, and the brilliant work getting done up there, on the great video they put together on their Facebook Page.

**Material Safety Data Sheets**

**Safety Data Sheets..**

*Ya know the information about the stuff that could hurt you, the information that any Emergency service or First aider*

*needs to treat you if you get something nasty in your eyes, or on your skin or stupid enough to drink it etc etc ..Please be sure if you order or receive goods that have an MSDS attached that you pass it on to Gavin, or if it doesn't have one then please ask that the supplier provide, it's the law.*

*Don't want to find them laying around... they all need to be included in register and be on hand if at the place the substance is.*

*Thanks in advance..*

***Not many of you out there would have been around in the days old Hoady worked for J&R Morgans but if you were and want to have a farewell beer for his passing there will be a wake on Friday afternoon at the Slippy.***

*You may have heard on the grape-vine that one of our sites got robbed, we lost over Ten thousands dollars worth of tools etc. yeh sucks, Looks like the robbers were well equipped for the job and not much could have stopped them but please be vigilant at checking our sites, tools, plant, cars, and the contents of all of the above are kept safely locked away.. If anyone's got any ideas about how to keep our stuff more secure than they are feel free to send them our*
