Thank you!

Plenty of rain around, water ways could be effected by our work, our Environment is all of our responsibility so please as you're going about your day keep an eye out for Sediment controls that need attention..... Some eg.

- Sediment ponds able to take predicted flow & back up measures,
- Silt fences in good shape (even if fences are erected by a subby please notify your supervisor)
- Also be sure that all waste from Sucker Trucks is discharged into a secure bunded area.
 - Sediment socks protecting stormwater drains.

OPERATORS

Very short on Pre start paper work this week... Please send them in with your paybook.. again if anyone is having problems with these or Proximity Permits just ask.

Birthdays in May

Michelles on the 30th (it's a Pay day so if she calls you give her some extra love)
Bella Morgan turns 18 on the 23rd... If you see her out playing up feel free to dob her in :)

Don't forget Your Mother-or the Mother of your Children-or any Mum you think deserves some extra love this Mothers day

Ok guys the Pay books.....

We have Cat in here helping out, please try and make her job a little easier by making sure your entries are clear and legible and remembering to always include your **Start** and **Finish** times (this helps a lot if something a bit askew)

Operators don't forget to include your **Prestart** & add **Smoko** as labour.... If anyone needs some help/explanation please pop in.
